

THE STEM HOMESTUDY CHALLENGE

SCIENCE TECHNOLOGY ENGINEERING & MATHS

**Open to
all
Year 7
and
Year 8
students**

*Have **YOU** got the skills and knowledge needed to create amazing online teaching resources?*

*Do you want to have **YOUR** exciting and rewarding tasks shared across our school community, the nation, or even the world!?*

*There is no better way to **LEARN** than to design resources that **TEACH**.*

RULES AND HOW TO ENTER: First round deadline is 6pm Sunday 5th April

- Your task must cover a theme that relates to the study of STEM based subjects. It does not need to cover them all, but must not just focus on one.
- Your task must fit onto a single side of A4 and be in a format that will allow it to be attached in an email. (Word, Powerpoint, PDF file)
- It must be designed for your year group.
- It must allow students to send their response back to a teacher.
- It must take a student between 30 - 60 minutes to complete.
- Send your entries each week (by 6pm on Sunday) to Mr. Green at a.green@pcs.hants.sch.uk
- He will decide on which ones are the best and will send them on to the rest of the year group.
- At the end of each week (3pm on a Friday) Mr. Green will publish a chart showing how many students have used your resource.

**Two
£5.00
Amazon
vouchers
awarded
each
week for
the
most
creative
and the
best
quality
resource**
