Dear Parents/Carers

Homework Expectations after half term

It is a very exciting time for Year 9 - they are beginning their final half term before officially starting their GCSE options in September. Options were finalised this week and your child received a letter confirming these.

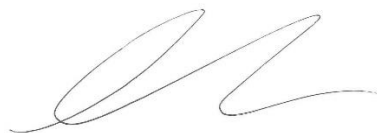

To aid the transition, starting after the half term, students will be set extra homework activities alongside the MCQs which will continue to be set alternate weeks.

This extra homework could include some practice exam questions, use of an online revision platform called 'Seneca' or an independent revision task.

The purpose of this extra homework is to raise the expectation more in line with the GCSE syllabus, and to consolidate and revise learning outside of lessons.

Please support and encourage your child to continue to work hard and complete any homework given.

Yours faithfully

Lucy Conner
Assistant Headteacher
