## FREEDOM OF INFORMATION POLICY

---

Approved at FGB on 29/03/06

This is Park Community School's Publication Scheme on information available under the Freedom of Information Act 2000. The governing body is responsible for maintenance of this scheme.

### **1. Introduction: what a publication scheme is and why it has been developed.**

One of the aims of the Freedom of Information Act 2000 (which is referred to as FOIA in the rest of this document) is that public authorities, including all maintained schools, should be clear and proactive about the information they will make public. To do this we must produce a publication scheme, setting out:

The classes of information which we publish or intend to publish, the manner in which the information will be published and whether the information is available free of charge or on payment. The scheme covers information already published and information which is to be published in the future. All information in our publication scheme is either available for you on our website to download and print off or available in paper form. Some information which we hold may not be made public, for example personal information. This publication scheme conforms to the model scheme for schools approved by the Information Commissioner.

### **2. Aims and Objectives**

Park Community School aims to prepare its young people for life and to equip them for citizenship.

The successful realisation of these overall aims will be through:

Improving the quality of teaching and learning which is fundamental to improving motivation, raising levels of achievement and generating a desire to learn for each individual.

- (a) The school aims to provide equal opportunities for all to develop their individuality and realise their potential through:

The delivery of the National Curriculum Programmes of Study, the setting of targets and the process of Assessment Recording and Reporting.

- (b) The school aims to enable students to acquire the knowledge, skills and understanding relevant to their present and future needs by:

Recognising that each student is a complex individual with a wide range of different skills, abilities and interests and the need to develop the whole individual.

- (c) The school aims to foster qualities of creativity, imagination, independence, spirituality and aesthetic appreciation by:

Recognising that for any individual to thrive and to show initiative they must feel secure and valued.

- (d) The school aims to provide a happy, secure and caring environment in which everyone can develop confidence, self-respect and self-esteem by:

Recognising that society as a whole has an important contribution to make in realising these aims.

- (e) The school aims to enhance the educational and social development of student through partnership with parents and the wider community and:

Recognising that we live in an environment that supports a multicultural society containing a wide range of social and economic difference.

- (f) The school aims to foster understanding, appreciation and care for others and the world in which we live and this publication scheme is a means of showing how we are pursuing these aims.

### 3. Categories of information published

The publication scheme guides you to information which we currently publish (or have recently published) or which we will publish in the future. This is split into categories of information known as 'classes'. These are contained in section 6 of this scheme. The classes of information that we undertake to make available are organised into four broad topic areas:

- School Prospectus - information published in the school prospectus.
- Governors' Documents - information published in the Governors
- Annual Report and in other governing body documents.
- Pupils & Curriculum - information about policies that relate to pupils and the school curriculum
- School Policies and other information related to the school - information about policies that relate to the school in general.

### 4. How to request information
