Statement of intent

We aim to help students find what they love and are committed to providing all students with an education that provides strong academic success alongside experiences of the world and the curriculum which broaden horizons and promote a love of learning. We are ambitious for our students and provide an education that enables them to make considered choices about their future.

We invest heavily in securing:

- High quality teaching which develops students' subject expertise and passion for learning
- A broad, balanced and innovative curriculum
- A culture of reading which develops literacy but also cultural capital
- Parental engagement and support
- Wider cultural experiences designed to broaden students' experiences of the world, their ambition, and opportunities

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p>Disadvantaged students' attainment on entry to secondary school, based on historic Key Stage 2 data, Year 7 assessments and reading ages, demonstrate that they are typically lower than non-disadvantaged.</p> <p>GCSE outcomes for disadvantaged students are lower than those who are not disadvantaged.</p> <p>2022: Basic 4+ PP 19%, Non-PP 33%, Basics 5+ PP: 6%, Non-PP 12%</p> <p>2023: Basic 4+ PP 22%, Non-PP 46%, Basics 5+ PP: 6%, Non-PP 18%</p> <p>2024: Basic 4+ PP 17%, NON PP 32% , Basics 5 PP: 6% , Non PP: 20%</p> <p>2025: Basic 4+ PP 23% NON PP 45% , Basics 5 PP: 5% NON PP: 29%</p>
2	<p>Reading and literacy: Evidence from reading age data, measured annually, demonstrates that typically 30-35% of all students read below their chronological age on arrival to Park. It varies by a few percent each year, but in 2025 is made up of: 14% reading between 9 and 11 years, a further 16% below 8 years. Typically between 80-89% of students reading below 9 years are PP. In addition, reading for pleasure is less frequent for disadvantaged students outside of school.</p>

	<p>2022: Year 7 reading age on entry: 22% below 11 years (10% below 9 years)</p> <p>2023: Year 7 reading age on entry: 35% below 11 years (22% below 9 years)</p> <p>2024: year 7 reading age on entry: 33% below 11 years (20% below 9 years)</p> <p>2025: Year 7 reading age on entry: 33% below 11 years (16% below 9 years- 89% PP, 11% NonPP)</p>
3	<p>Attendance for disadvantaged students is lower than non-disadvantaged.</p> <p>2023-24: PP: 78.24% NONPP: 87.85% (Overall 81.9)</p> <p>2024-25: PP: 82.8% NON PP: 90.8% (Overall 85.8%)</p> <p>Disadvantaged students are twice as likely to be persistent absentees as non-disadvantaged students</p>
4	<p>Parental engagement for disadvantaged students is on average 20% lower than that of non-disadvantaged, as evidenced by attendance at parent evenings, student learning events and use of the parent mobile app</p>
5	<p>Wider cultural experiences: students often have not experienced some things considered typical for more affluent families. This includes travel, visiting theatres, restaurants, and wider cultural experiences locally as well as travelling internationally.</p>
6	<p>Attitude to learning average scores are lower for disadvantaged students when compared to non-disadvantaged. This includes homework completion rates.</p>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
<p>Improve the Attainment 8 and % of students achieving Grade 4 and Grade 5 or above Basics (English and maths) of disadvantaged students year on year. This will narrow the gap between that attainment of disadvantaged and non-disadvantaged students</p>	<p>Reduced gap between disadvantaged and non-disadvantaged for Attainment 8 in years 2026, 2027, 2028</p> <p>Overall % students achieving Basics Grade 4+ at 40% by 2026, 46% by 2027</p> <p>Overall % students achieving Basics Grade 5+ at 20% by 2026, 25% 2027</p>
<p>At Key Stage 3, the percentage of disadvantaged students reaching the expected standard (Step 3 and above) is increased so that the gap is reduced between disadvantaged and advantaged</p>	<p>70% of current Year 7 cohort at expected standard in English and maths by July '26 (2024-5: 64% English, 55% maths)</p>
